

I-Jury Online Summons Response System

Introduction

The I-Jury system has been designed to reduce the number of people who have to turn up 'in person', at the courthouse, for jury service.

The system selects potential jurors by using the information gathered from online responses to determine those who qualify, and are not claiming exemptions. These potential jurors are told they will receive their assignment from the court by mail, email or telephone.

If you would like to participate in the I jury selection process, please follow the link below, but remember you must have been currently summoned and have your I jury passport with you. The passport has your log in information on it such as your :

- Beginning Summons Date
- Jury Summons Number
- Pass-Code

There are a couple of things to remember:

Please do not respond by mail AND online – choose only one method

You will be notified of a specific time and place to report

Although you are called to serve the beginning of the month – you will only need to appear when you receive your notice to appear in an assigned court.

Please contact us if you have any questions.
