**MANAGEMENT'S DISCUSSION AND ANALYSIS
REQUIRED SUPPLEMENTARY INFORMATION**

As management of the Burnet County Emergency Services District No. 8 (the District), we are pleased to offer readers of the District's financial statements this narrative overview and analysis of the District's financial activities for the fiscal year ended December 31, 2019. We encourage readers to consider it in conjunction with the additional information presented in the accompanying basic financial statements and the notes to the financial statements.

Financial Statements

- The net position of the District increased by \$362,395 as a result of the current year's operations. Net position at year end consisted of invested in capital assets, net of related debt of \$115,751 and unrestricted net position of \$558,223 for a total net position of \$673,974.
- Total revenues from all sources were \$630,861. This represents an increase of \$304,348 due to increased tax collections and the contributions of vehicles from the Briggs Volunteer Fire Department.
- Total costs of all programs were \$268,466. This represents a decrease of \$14,779 due to funds returned from the Briggs Volunteer Fire Department offset by increased depreciation from assets transferred from the Briggs Volunteer Fire Department and increased legal costs.
- As of December 31, 2019, the District's governmental fund reported an ending fund balance of \$558,223, an increase of \$246,644.

Using this Annual Report

This annual report presents the following three components of the financial statements:

1. Government-wide financial statements provide information for the District as a whole.
2. Fund financial statements provide detailed information for the District's significant funds.
3. Notes to the financial statements provide additional information that is essential to understanding the government-wide and fund financial statements.

This report also contains other supplementary information in addition to the basic financial statements themselves. The other information includes this management's discussion and analysis as well as a budgetary comparison schedule.

Government-Wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of the assets and liabilities of the District. The difference between assets and liabilities is reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statement of Activities* presents information on how the District's net position changed during the most recent fiscal year. This statement is presented using the accrual basis of accounting, which means that all of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

Both the Statement of Net Position and the Statement of Activities present information for the following:

- Governmental activities—This includes all of the District's emergency protection services which are primarily supported by property tax collections.

The government-wide financial statements begin on page 9. The following is a summary of net assets as of December 31, 2019:

**Table 1

Net position - December 31	<u>\$ 673,974</u>	<u>\$ 311,579</u>

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The fund financial statements provide detailed information about the District's significant funds - not the District as a whole. The District's funds fall into one category - governmental funds.

The focus of the District's *governmental fund* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Burnet County Emergency Services District No. 8

Management's Discussion and Analysis (Continued)

December 31, 2019

The *governmental funds statements* provide a detailed short-term view of the government operations and the basic services it provides, and are reported on the modified accrual basis of accounting which focuses on available spendable resources. This allows the reader to evaluate the District's short-term financing requirements. Both the governmental fund *Balance Sheet* and the governmental fund *Statement of Revenues, Expenditures, and Changes in Fund Balance* provide a reconciliation to the government-wide financial statements.

The District adopts an annual budget for the general fund. A budgetary comparison schedule has been provided to demonstrate compliance. The governmental fund financial statements begin on page 11, and the budgetary comparison schedule is on page 24.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 14 through 22 of this report.

General Fund Budgetary Highlights

The District Commissioners did not amend the budget during the year ended December 31, 2019.

Actual expenditure results on a budgetary basis were 42 percent more than budgeted due primarily to sales tax distributions to the Department and increased legal fees. The District's overall actual revenue was 137 percent more than budgeted due to unexpected property tax collections and unbudgeted sales tax collections.

Capital Assets

The District investment in capital assets for its governmental activities as of December 31, 2019, amounts to \$115,751 (net of accumulated depreciation). This investment in capital assets includes computers, vehicles, machinery and equipment.

Capital Assets Governmental Activities (net of depreciation)

	<u>2019</u>	<u>2018</u>
Equipment	\$ -	\$ -
Vehicles	<u>115,751</u>	<u>-</u>
	<u>\$ 115,751</u>	<u>\$ -</u>

Seven vehicles were transferred from the Briggs Volunteer Fire Department and three of these vehicles were sold during 2019. Additional information on the District's capital assets can be found in Note 4 on page 21 of this report.

Debt Administration

The District has no debt as of December 31, 2019.

Economic Factors and Next Year's Budgets and Rates

The District's tax revenues are expected to continue to grow with the steady population growth and an increase in online shopping. These additional funds will be used for funding of the Volunteer Fire Department as needed.

Contacting the District's Financial Management

This financial report is designed to provide a general overview of the District's finances and to demonstrate the District's accountability for the money it receives from the citizens of the Burnet County Emergency Services District No. 8. If you have any questions about this report or need further information, contact the Burnet County Emergency Services District No. 8, P.O. Box 361, Briggs, TX 78608.

INDEPENDENT AUDITORS' REPORT

To the Commissioners
Burnet County Emergency Services District No. 8

We have audited the accompanying basic financial statements of the governmental activities and each major fund of the Burnet County Emergency Services District No. 8 (District), as of and for the year ended December 31, 2019, as listed in the accompanying table of contents.

Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the basic financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the basic financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of Burnet County Emergency Services District No. 8 as of December 31, 2019, and the results of its operations for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison schedule on pages 2 through 6 and 24 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. This supplemental information is the responsibility of the District's management. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

*Reconciliation of the Statement of Revenues, Expenditures, and
Changes in Fund Balance - Governmental Funds to the Statement
of Activities*

For the Year Ended December 31, 2019

Net Change in Fund Balance-Governmental Funds \$ 246,644

Amounts reported for governmental activities
in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures.
However, in the Statement of Activities the cost of those assets is
allocated over their estimated useful lives as depreciation expense.
This is the net effect of these differences in the treatment of capital
outlays and related items. (See Note 4)

115,751

Change in Net Position of Governmental Activities \$ 362,395

The accompanying notes are an integral part of the financial statements.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES***Reporting Entity***

Burnet County Emergency Services District No. 8 (the District) was created by election held on November 3, 2009. The District operates under Article III, Section 48-e of the Texas Constitution and Chapter 775 of the Texas Health and Safety Code and is run by a Board of Commissioners appointed by the Burnet County Commissioners Court. The District's major activities include providing emergency services to the residents of the district.

As required by U.S. generally accepted accounting principles, the financial statements of the reporting entity include those of the District (the primary government) and its component units. In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity is made by applying the criteria set forth in U.S. generally accepted accounting principles. The basic, but not the only, criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant indication of this ability is financial interdependency. Other indications of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. The other criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the District is able to exercise oversight responsibilities. The District had no component units for the year ended December 31, 2019.

Management's Discussion and Analysis

Current standards issued by the Governmental Accounting Standards Board (GASB) requires that financial statements be accompanied by a narrative introduction and analytical overview of the government's financial activities in the form of a "management's discussion and analysis" (MD&A). This analysis is similar to analysis the private sector provides in their annual reports.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)***Government-Wide Financial Statements***

The reporting model includes financial statements prepared using full accrual accounting for all of the District's activities. This approach includes not just current assets and liabilities (such as cash and accounts payable) but also capital assets and long-term liabilities (such as buildings and infrastructure and general obligation debt). Accrual accounting also reports all of the revenues and cost of providing services each year, not just those received or paid in the current year or soon thereafter.

Statement of Net Position

The Schedule of Net Position is designed to display the financial position of the primary government (governmental activities) and its discretely presented component units, if any. Governments will report all capital assets, including infrastructure, in the government-wide Statement of Net Position and will report depreciation expense - the cost of "using up" capital assets - in the Statement of Activities. The net position of a government will be broken down into three categories - invested in capital assets, net of related debt; restricted; and unrestricted.

Statement of Activities

The government-wide statement of activities reports expenses and revenues in a format that focuses on the cost of each of the District's functions. The expense of individual functions is compared to the revenues generated directly by the function (for instance, through user charges or intergovernmental grants).

Fund Financial Statements

Fund financial statements are provided for the governmental funds.

General Fund

The General Fund is the principal fund of the District which accounts for all financial transactions not accounted for in other funds. The District had no other funds for the year ended December 31, 2019.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance Classification

The District follows GASB No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. In the fund financial statements, governmental funds report the following classifications of fund balance:

- Nonspendable - includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.
- Restricted - includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.
- Committed - includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to ordinances passed by the Board, the District's highest level of decision making authority. Commitments may be modified or rescinded only through ordinances approved by the District's Board.
- Assigned - includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance.
- Unassigned - includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose within the General Fund. The District reports all amounts that meet the unrestricted General Fund Balance Policy as unassigned.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

In fiscal year 2018, the District amended their minimum fund balance policy. The policy requires the unassigned fund balance to be at least equal to \$50,000.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)***Budgetary Comparison Schedules***

Demonstrating compliance with the adopted budget is an important component of a government's accountability to the public. Many citizens participate in one way or another in the process of establishing the annual operating budgets of state and local governments, and have a keen interest in following the actual financial progress of their governments over the course of the year. Many governments revise their original budgets over the course of the year for a variety of reasons. Under the GASB 34 reporting model, governments are required to provide the District's original budget with the comparison of final budget and actual results.

The budget is adopted by the Commissioners prior to the beginning of the fiscal year. Amendments are made during the year on approval by the Commissioners. The District adopted the current year's budget on a line item basis.

Basis of Presentation

The accounting and reporting policies of the District relating to the accompanying financial statements conform to U.S. generally accepted accounting principles as applicable to governmental units. U.S. generally accepted accounting principles for governmental units include those principles prescribed by the Governmental Accounting Standards Board (GASB), the Financial Accounting Standards Board (FASB), and appropriate pronouncements of the American Institute of Certified Public Accountants (AICPA).

Government-Wide and Fund Accounting

The basic financial statements include both government-wide (based on the District as a whole) and fund financial statements. Both the government-wide and fund financial statements (within the basic financial statements) categorize primary activities as either governmental or business-type. As of December 31, 2019, the District had no business-type activities.

In the government-wide Statement of Net Position, the governmental activities column is to be presented on a consolidated basis, and is reflected, on a full accrual, economic resource basis, which incorporates long-term assets and receivables as well as long-term debt and obligations.

The government-wide Statement of Activities reflects both the gross and net cost per functional category (public safety), which are otherwise being supported by general government revenues (property taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants, and contributions, if any. The program revenues must be directly associated with the function (public safety). The operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. The District does not allocate indirect expenses.

Amounts reported as program revenues include (1) charges to customers or applicants for goods, services or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Likewise, general revenues include all taxes.

In the fund financial statements, financial transactions of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, and revenues and expenditures. Government resources are allocated to, and accounted for, in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

The governmental fund financial statements are presented on a current financial resource and modified accrual basis of accounting. This is the manner in which these funds are normally budgeted. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental column, a reconciliation is presented which briefly explains the adjustment necessary to reconcile funds based on fund financial statements with the governmental column of the government-wide presentation.

The focus of the reporting model is on the District as a whole and the fund financial statements, including the major individual funds of the governmental and business-type categories, as well as the fiduciary funds, and the component units (if any). Each presentation provides valuable information that can be analyzed and compared (between years and between governments) to enhance the usefulness of the information.

Basis of Accounting

Basis of accounting refers to the method by which revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide statement of net position and statement of activities, are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

liabilities associated with the operation of these activities are included on the statement of net position.

All revenue and expenditure recognition for governmental funds are accounted for using the modified accrual basis of accounting. Only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of “available spendable resources.” Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. The District’s revenues are recognized when they become measurable and available as current assets. Available means collectible within the current period or as soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Penalties and interest, and miscellaneous revenues are recorded when received in cash because they are generally not measurable until actually received. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Capital Assets

Capital outlays are recorded as expenditures of the General Fund and as assets in the government-wide financial statements of the District. Depreciation is recorded on general fixed assets on a government-wide basis. All fixed assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated fixed assets are valued at their estimated fair market value on the date donated. Depreciation is computed using the straight line method.

Maintenance, repairs, and minor equipment are charged to operations when incurred. Expenditures that materially change capacities or extend useful lives are capitalized. Upon sale or retirement of equipment, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and any resulting gain or loss is included in the results of operations.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Estimated useful lives for depreciable assets are as follows:

Equipment	5 years
Vehicles	5 years

NOTE 2 - PROPERTY TAXES

The District's property tax is levied each October 1 on the assessed value listed as of the previous January 1 for all real property located in the District. The tax levy for October, 2019 was \$197,083.

The tax assessment of October 1, 2019 sets the tax levy at \$0.10 per \$100 of assessed valuation at 100 percent of market value.

Delinquent property taxes estimated to be collectible within the next fiscal year are recognized as revenues. Other delinquent property taxes receivable at year end that are deemed to be ultimately collectible are recorded as deferred revenues.

NOTE 3 - DEPOSITS, SECURITIES AND INVESTMENTS

As of December 31, 2019, cash deposits were with a depository bank, and these balances approximated fair value. As of the balance sheet date, the District's deposits totaled \$317,523 and the bank balance was \$319,620 of which \$69,620 is not insured by the Federal Deposit Insurance Corporation.

Burnet County Emergency Services District No. 8*Notes to the Financial Statements**December 31, 2019***NOTE 4 - CHANGES IN CAPITAL ASSETS**

Changes in general fixed assets during the year ended December 31, 2019, were as follows:

	Balance January 1, <u>2019</u>	<u>Increases</u>	<u>Decreases</u>	Balance December 31, <u>2019</u>
Capital Assets				
Equipment	\$ 812	\$ -	\$ -	\$ 812
Vehicles	-	585,745	158,719	427,026
Less accumulated depreciation	<u>(812)</u>	<u>(419,889)</u>	<u>(108,614)</u>	<u>(312,087)</u>
Capital Assets, Net	\$ <u>-</u>	\$ <u>165,856</u>	\$ <u>50,105</u>	\$ <u>115,751</u>

Current year depreciation expense of \$57,800 was charged to public safety expense. All public safety machinery, equipment, and vehicles are used by the Oakalla Volunteer Fire Department in accordance with the contract described in Note 5.

NOTE 5 - COMMITMENTS

Effective October 1, 2011 and renewed through December 31, 2019, the District entered into an agreement with the Oakalla Volunteer Fire Department. This entity agreed to provide emergency services to all persons and property within the Emergency Services District, including response to life-threatening emergencies and rescue calls by making available adequate volunteers and administrative assistance.

Amounts to be paid to the Department shall be disbursed at the discretion of the Board and may include expenses for operations and other expenditures approved by the District for maintaining emergency services within the District. If at any time the Department is dissolved or the agreement is terminated by either party, any assets purchased wholly or in part with funds from the ESD shall be immediately transferred to another Department contracted by the ESD or to the ESD at its sole discretion. Any other assets owned by the Department will be handled in accordance with the dissolution or termination clause of the contract so that emergency services provided by the District will continue without interruption.

In fiscal year December 31, 2019 the ESD paid as follows:

Oakalla Volunteer Fire Department	\$ 266,898
Excess Briggs Volunteer Fire Department money returned	<u>(100,383)</u>
	\$ <u>166,515</u>

NOTE 6 - SUBSEQUENT EVENTS

Subsequent to year end, the District settled disputes with the Briggs Volunteer Fire Department over remaining contract issues. The District is still in a suit with the Briggs Community Center regarding the location of the rainwater collection system. The cost to move the tanks or the potential lease to leave the tanks cannot be estimated at this time.

The District did not have any other subsequent events through June 17, 2020, which is the date the financial statements were available to be issued for events requiring recording or disclosure in the financial statements for the fiscal year ended December 31, 2019.
