**PETITION.** Kingsland LAG, LLC, an Oklahoma limited liability company, (Petitioner) filed a petition for creation of Kingsland Commons Municipal Utility District (District) of Burnet County with the Texas Commission on Environmental Quality (TCEQ). The petition was filed pursuant to Article XVI, §59 of the Constitution of the State of Texas; Chapters 49 and 54 of the Texas Water Code; 30 Texas Administrative Code Chapter 293; and the procedural rules of the TCEQ.

The petition states that: (1) the Petitioner holds title to a majority in value of the land to be included in the proposed District; (2) there is one lienholder, Legacy Bank, on the property to be included in the proposed District and the lienholder consents to the creation of the proposed District; (3) the proposed District will contain approximately 48.674 acres of land located within Burnet County, Texas; and (4) none of the land to be included within the proposed District is within the corporate limits or extraterritorial jurisdiction of any city.

The territory to be included in the proposed District is depicted in the vicinity map designated as Exhibit "A", which is attached to this document.

The petition further states that the proposed District will: (1) construct, maintain, and operate a waterworks system, including the purchase and sale of water, for domestic and commercial purposes; (2) construct, maintain, and operate a wastewater collection, treatment, and disposal system, for domestic and commercial purposes; (3) construct, install, maintain, purchase, and operate drainage and roadway facilities and improvements; and (4) construct, install, maintain, purchase, and operate facilities, systems, plants, and enterprises of such additional facilities as shall be consonant with all of the purposes for which the proposed District is created.

According to the petition, a preliminary investigation has been made to determine the cost of the project, and it is estimated by the Petitioner that the cost of said project will be approximately \$7,309,880 (\$3,638,268 for water, wastewater, and drainage plus \$3,671,612 for roads).
